SPASSO

Redefined elegance

LINEN

NO LABEL

VEGAN

Spasso embodies a contemporary vision of fashion, born from a desire to offer a wardrobe that is understated, refined, and resolutely authentic. The brand speaks to those who want to offer their clients quality garments — elegant, durable, and inspiring pieces designed to become the foundation of unique identities.

A complete range built around several complementary lines, each conceived as a solid base to be personalised, styled, or worn just as they are. Among them, four signature collections: linen, corduroy, knitwear, and sherpa.

Whether it's to build a minimalist capsule or enrich an existing wardrobe, Spasso offers well-cut, honest pieces — grounded in the spirit of the times.

THE SPASSO DNA, BUILT ON THREE PILLARS:

1___ Noble Materials

Fabric is the starting point. Linen — the brand's signature — sits alongside cotton and viscose. These materials are then crafted into a range of fabrics, from airy voiles to rich corduroy, giving life to pieces that are elegant, comfortable, and distinctly modern.

2___ Contemporary Elegance

At Spasso, every garment is a blank canvas — a piece designed to adapt, evolve, and tell a story. From airy shirts to textured knit polos, from sharply tailored trousers to easy summer shorts: a wardrobe that embraces a natural, fluid style with a subtly modern edge.

3___ Timeless Aesthetic

The collections revolve around organic tones like Linen Sand, Organic Khaki, and Navy Blue — a subtle, understated palette designed to carry effortlessly through the seasons. Cuts are precise, details carefully considered, and each piece is made to stand the test of time — both in style and in quality.

solo Our Commitments

Solo brands include SOL'S & NEOBLU

Ethics have always been central to Solo's activities. We believe high standards and responsibility can go hand in hand,by cultivating respectful relationships with our teams, partners, and clients. Every decision we make aims to create high-quality products, designed with care and respect for people and the environment.

Act4u reflects our commitment to take concrete action, to go further each year and to address challenges in order to positively transform our industry. **This plan guides our CSR approach with a clear direction and well-defined priorities and progress. It enables us to act methodically, with transparency and ambition.**

The "U" stands for "union" as well as for "you", because transforming our industry is a collective effort that involves all of us.

Act4u is based on four pillars

U are the PLANET :
reducing our greenhouse gas emissions across the entire supply chain, aligned with the Paris Agreement and the European Green Deal.

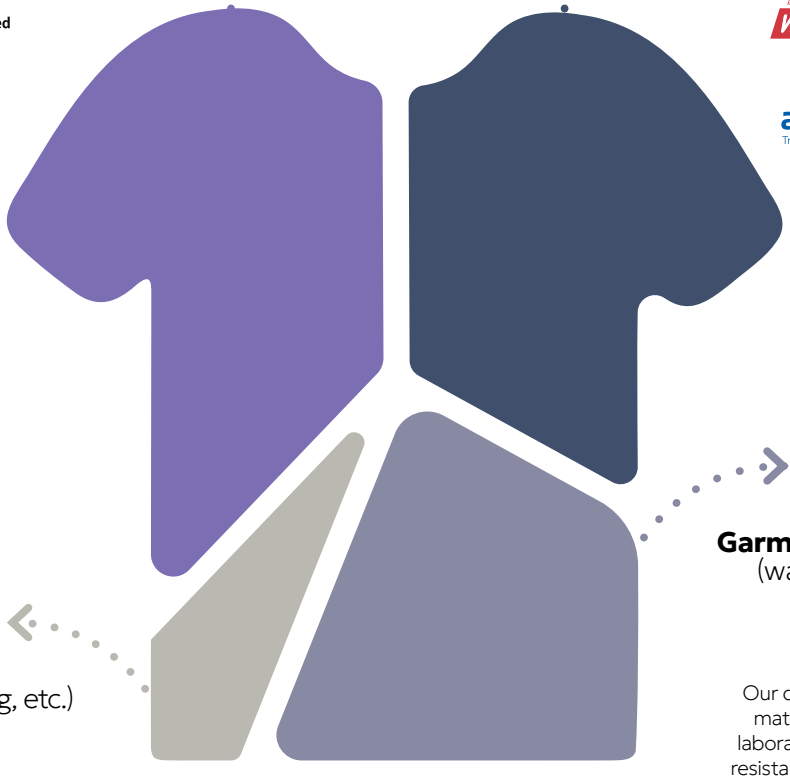
U are the CHANGE :
sharing our knowledge and experience with our clients, partners and suppliers to support them in their actions.

U are the PEOPLE :
establishing and promoting ambitious social standards across our value chain and guaranteeing human rights, safety and dignity at work.

U are the PROMOTER :
ensuring the transparency of our actions through audits and certifications, and by being involved in several international associations with the main players in the industry.

Today, our actions cover 100% of our garments' life cycle

Breakdown of carbon footprint across each stage of a product's life cycle*



38%
Raw material manufacturing

By the end of 2026, our goal is that at least 90% of the cotton we purchase is organic, recycled or in accordance with the BCI standards.
Since 2024, we have also been gradually replacing virgin polyester in our collections with recycled polyester. And this approach goes further every year.

33%
Garment's manufacturing (spinning, weaving, dyeing, sewing)

Solo requires all its suppliers to follow its **Code of Conduct** in line with the core conventions of the International Labour Organization (ILO). We work with factories that meet the OEKO-TEX® STANDARD 100 requirements for chemicals, helping to reduce the environmental impact of our products.

23%
Garment's life and end of life (washing, ironing, drying, recycling, etc.)

Our quality team selects hard-wearing materials and tests them annually in laboratories to ensure long-lasting wear resistance. Our designers create timeless garments, to be worn often and kept longer. By focusing on **quality and style**, we encourage users to wear them longer and to reduce their environmental impact.

6%
Other (transport, packaging, etc.)

We prioritise sea freight over air freight. Our packaging is 100% recycled and/or recyclable. Moreover, since 2023, we have reduced our packaging use by switching to master polybags and eliminating individual packaging and unnecessary accessories.
